Sowmiya S

Web Developer | Learner | Designer

About Me

Hello! I'm Sowmiya S, an enthusiastic and motivated web developer eager to start my journey as a Full Stack Developer Intern. I have a strong foundation in HTML, CSS, and JavaScript, and I'm currently exploring React and backend technologies to build scalable web applications. I enjoy creating clean, responsive, and user-friendly designs, and I'm passionate about learning new tools and frameworks like TypeScript, FastAPI, and MySQL. With good teamwork and problem-solving skills, I'm excited to contribute to real-time projects at Guvi and grow into a skilled full stack developer.
